

Pennsylvania Pete Radatti's Radionic Programs Library

Document Version 8 – August 2023 peter@tigerteam.com

Eighth Year Anniversary of Releasing Public Domain Radionics Programs in a library format, starting in 2016 and continuing to today. Now containing 102 programs.

Do not stop medical treatment by a licensed medical professional. This is spiritual support only and is not offered as a cure.

Nothing in this collection is offered with any warranty of any kind. As-is, Where-is. These programs are in the public domain. Nothing in this collection is medical in nature, even where it may appear to be so. Everything in this collection is spiritual in nature as is Radionics.

There are no claims of anything, even when a description appears to be a claim, it is explicitly not a claim. No claim is made for suitability, effectiveness, or harmlessness. These are all spiritual in nature and therefore claims are not possible.

All programs are locked using Lock-1 Gem. Lock-1 allows for copying so you can use these to make potentized jewelry, water/oil, food, broadcast, etc. You can even copy them to share.

Please note that the number to the left of the program name is the program number for that specific program and has meaning. When recording work that you did using this library you can just record the program number. For example: 7,8,9,3 means that you created a program that contains "St. Jude & Buddha Buddies Ver 4" AND "Financial Fulfillment" AND "Take Control of My Life" AND "Lock-1 GEM". Some programs in this library refer to number/programs not made available. That is deliberate. Everything in this library is provided without a warranty. I refer to these as programs. Other radionics operators may refer to them as reagents or stored rates. I use the word program because it more clearly represents the complexity of what is there. These are arranged in the order in which I released them to the public and are not numeric. Since these are in public domain you may combine them with your own radionics program to make even more powerful programs. You may then share or sell the resulting programs. I request that you not sell my programs as your own but acknowledge authorship and the public domain nature of my work.

The program numbers contained in this library in numeric order are:

1, 2, 3, 6, 7, 8, 9, 10, 11, 12, 13, 15, 16, 17, 19, 21, 22, 23, 24, 25, 29, 30, 35, 36, 38, 39, 46, 48, 60, 61, 62, 63, 64, 66, 67, 68, 69, 71, 72, 73, 81, 82, 90, 93, 95, 97, 98, 100, 116, 117, 119, 122, 125, 126, 127, 136, 137, 147, 148, 150, 169, 170, 174, 181, 183, 184, 185, 188, 194, 200, 204, 206, 208, 209, 214, 218, 219, 247, 311, 321, 329, 355, 348.

Plastic Cards

You know that I love to potentize jewelry, crystals, and sand that when worn provides all kinds of passive radionics advantages. Did you know that you can potentize carbon in addition to water and crystals? That is why many radionics practitioners use small plastic cards to store rates. Plastic is pure carbon arranged in long complex molecules. Nothing special like magnetic stripes or chips are necessary, just the pure carbon of plastic. Plastic cards are compatible with Number 147, Self-Regenerating Rates.

2016 Public Release

Contains 17 programs.

1. ROSP Version 1.00

(Radionics Operating System Program) Used to enhance abilities, the workstation and protect work from interference. Can also be broadcast to a witness. In addition, produces a bubble of protection that allows good energy in and bad energy out but keeps bad energy from entering.

2. Unlock-1 GEM / Solids

Used to unlock or clear gems/crystals/jewelry/hard candies/most solids. If a gem is locked and you want to add programs to it, run once. It will unlock without erasure. To clear/erase everything, run the program twice in a row.

3. Lock-1 GEM / Solids

Use to lock programs in gems/crystal/jewelry/hard candies/most solids. This locks the gem so that no other programs or energy can modify the item. Lock-1 does not have passwords and there are no restrictions on copying or usage.

6. Lock-1 WATER / Liquids

Use to lock programs in water so that no other programs or energy can get into it. Lock-1 does not have passwords and there are no restrictions on copying or usage. Ink and paint are a liquid.

7. St. Jude & Buddha Buddies Bracelet Version 4

This program includes spiritual and accelerated healing on many levels. It is where I start for all healing programs for humans, animals, and plants. It is very powerful and has had a lot of success. It even helps with minor problems like insect stings, minor bruises and small burns but is beneficial for serious and persistent problems. It is compatible with all other healing programs. There are several different programs working together starting with the Saint Jude program. Use this as the basis for your programs. Replaced by #35.

8. Financial Fulfillment

Copy program into silica or quartz sand and spread around the property or area where you wish to have more financial fulfillment. You can also broadcast it 24/7, potentize it into water/oil or incorporate it into jewelry.

9. Take Control of My Life

Take control of your life with this program. Changes will occur so make sure you are ready. This program has been emotionally painful for those that really need it but very successful. Part of how it works is by forcing you to see what is wrong in your life and presenting you with solutions. Change is always painful but necessary for growth. Cannot be stopped once started. Yes, it is emotionally painful, expect crying. Each person is different.

10. Bully Be Gone

Remove bullies from your life with this program. How they go away will be up to them, but they will stop bullying you. This program is beneficial to the bully as it helps them to become less of a bully and more of a normal human.

11. Repay IOU

Use this program to get payments for past due bills. You can simply place the sand/gem program on the invoice or bill that is overdue and set it in the corner until it has been paid. Sometimes this takes months to work. Someone who does not have the ability to pay will want to but cannot do what they cannot do. You can speed this up by broadcasting it.

12. The Phoenix Version 2

The Phoenix is another spiritual healing program that is compatible with St. Jude & Buddha Buddies Bracelet Version 4. Use this program when there is elderly involved or long-term illness, or the problem is critical. It is appropriate to use for dire need. The name Phoenix is appropriate. If you find the need to use this program, consider also using 13, 23 and 46.

13. Psychic Attack with Sacred Geometry

This is the standard psychic attack programs to ward off / balance psychic attacks combined with sacred geometry which makes the target less vulnerable to psychic attacks in the future by correcting spiritual entry points that are damaged.

15. A123-C (all organs)

Spiritually re-balance all the major organs.

16. Brain Fog

Resolves problems with long term brain fog. Users have reported success.

17. Lyme

Spiritual healing directed at Lyme Disease. Very powerful. Completely compatible with all medical procedures for Lyme's. Suggest the use of CJ's "skin" prayer stones after this program. See Pete's book for details on where to obtain CJ's programs.

21. Love & Lust

This program will reignite the love between two people, or it will make that lack of love apparent. Useful for couples who are having relationship problems.

22. Saint Jude

Saint Jude is the base for all spiritual healing used by Pete. It is powerful and can be broadcast or potentized. It is also the base program for #7 (Saint Jude and Buddha Buddy Bracelet).

23. SIR – Soul Integration Repair

The Sir (Soul Integration Repair) program does exactly what it says. It does not repair the soul. I don't believe you can damage the actual soul. It does not repair the physical body. It repairs the integration of the soul into the body. There are vast spiritual benefits from this better communication which include benefits to the physical body and elimination of entities.

2017 Public Release

Contains 7 programs.

24. Vampire Repellent

Vampire repellent is the program defined in Pete's book (Pages 122-126). It assists in repelling energy vampires and energy drainers. Does not work against Apex Vampires.

25. Hell Burner #1

This program is for repelling Apex Vampires and energy drainers. (Pete's book Page 126) Put this program into a pocket Radionics Power Pod (RPP) and carry. Next time you attend a public event (especially psychic fairs which attract energy drainers) and you are carrying the program in a RPP watch the large number of people who suddenly leave.

29. Enhance PSI Ability

Enhance your psychic abilities. No warranty and be sure you want it. It does not always work but it always reverses the "Disable PSI Ability".

30. Disable PSI Ability

When many naturally strong psychics enter their 20's they sometimes have difficulty dealing with their abilities. This can be severe and upsetting. This may also include difficulty sleeping, a general believe they are losing their mind due to "seeing" things or "knowing" things or the "impossible" abilities to move things, etc. This program is for them. It gives them a break. Potentize it into jewelry or broadcast it. It will eventually "wear-off" or you can reverse it with "Enhance PSI Ability".

35. Super Bracelet (1,7,8,12,13,14,15,16,23,24,25)

As of the year 2017 this is what I potentize into all jewelry. Note, program 14 is not part of the library. This is deliberate but may change in the future. Program 14 is included in program #35. You can add this to your programs but dowse if #7, #35 or #60 is best. Replaced in bracelets with #60

36. EWell Transmittal Program #1 (1,7,8,12,13,14,23,25)

As of the year 2017 this is the program that I broadcast when using the EWell. You can transmit this without an EWell. Note: Not all programs are suitable for transmittal 24-hours/day.

38. Increase Energy, Energy Reserves, Stamina (Version 1.0)

Increases energy, energy reserves and stamina. Should result in a general feeling of well-being. Spiritual in nature, AS-IS-WHERE-IS, No warranty.

2018 Public Release

Contains 4 programs.

39. Cloaking Program Version 1.0

The cloaking program is new and while it has had some success it has not yet had the full test of time. Monitor carefully.

The radionics cloaking program attempts to make you invisible to psychic/magic/spiritual/radionic attacks. Unfortunately, it also makes you invisible to beneficial attempts. It does not make you immune to attacks which involve direct touch. For that look at bubbles of protection which can be combined with this program. ROSE (card# 1) contains a bubble of protection.

If you want to send radionics programs at the same time as the cloaking program, then put the cloaking program in the input well along with the witness and any other programs or setting you want to transmit. They will be sent together. Therefore the machine that transmits the cloaking program can in fact see you. That machine should be physically secured from mischief. To discontinue the cloaking program just remove it from the well.

Not tested but should work, is to potentize the cloaking program into jewelry. If you are wearing the jewelry "they" should not be able to target you. To discontinue the cloaking program just remove the jewelry.

As an aside, the word cloaking means to hide or cover, to not be seen. Warning if you attempt to attack a senior radionics master while cloaking yourself, I suggest you think two or three times first. Your attack is the witness needed to find you.

46. Lazarus Program Version 2

The Lazarus program does not raise the dead, but it takes people on death's door and gives them more time. The primary reason for this is to give the Doctors more time to do what is needed to return to health. Can add years but each case is different. Requires 24/7 broadcast.

48. Herbal Turpentine from American Georgian trees

No explanation is offered for this program. Either you know or you don't.

72. Exorcism Version 2

This program was developed as a joint effort between Rae Bright Star Thomas. This version will attempt to get rid of demons and evil spirits up to a middle weight fighter. Later versions will take on heavier fighters. There are still problems with people who actively defend the demon who is infesting them. Includes Exorcism Version 1. **For more information on Rae Bright Star Thomas see her store front. Custom orgone and potentized items. <https://www.etsy.com/shop/WholisticArtisan>**

2019 Release

Contains 5 new programs.

60. Saint Jude and The Essence of Life Bracelet

This is my most powerful bracelet yet. It replaces all prior bracelets which are kept here for use as subroutines in other programs. Includes everything in #7 and #35.

61. 1-K Clear Kerosene

No explanation is offered for this program. Either you know or you don't.

62. Fenbendazole (animal dewormer)

No explanation is offered for this program. Either you know or you don't. It can also be used as an animal dewormer.

63. Win Legal

This program will help you to win a legal case in court. If you are involved in a jury case, then it is suggested you watch the movie "12 Angry Men" every night of the hearing. How this program works may be different than you expect. For example, there may be many postponements of the hearing leading to dismissal. It might be an outright win or key people may not show up. If you have done something evil this program may not work for you. It is intended for innocent people who are caught in the legal grinder.

19. New Kidney, Bladder & Stone Cleaner

This program will help people who are having kidney and/or bladder problems, uric acid buildup, oxalate buildup, gout, and arthritic joint pain. It should also help the liver and gall bladder function.

2020 Release

Contains 5 new programs.

66. Sacrum Coccyx Spiritual Support

All rates for this program are contained in the book, "Level-2 Radionics". This program provides spiritual support for the Coccyxal bones and joints, ligaments, nerves, and muscles of the pelvic floor. This is important in the case of sciatica which is not only extremely painful but can lead to complications such as loss of leg strength, obesity, loss of pelvic floor muscle strength, loss of bowel control, depression, and mental health issues. Please read the chapter in the book before using it. Contains 31 rates.

67. UTRAN IF Statement

All rates for this program are contained in the book, "Level-2 Radionics". This program allows you to do "computer programming" using analog rates on Radionics machines. The IF statement is the most powerful in that it allows you to determine if a rate is needed or not. For example, if you want to write a small program that checked different parts of the eye for needing balance you could do the following:

Here are some example rates for parts of the eye. These are real rates but only a few of many.

Eyes, Eyeball, orbital cavity 35.75-45.75

Eye Lens, capsule 57.25-56.50

Eye vitreous body, hyaloid membrane 34-32.2

IF(35.75-45.75) 35.75-45.75

IF(57.25-56.50) 57.25-56.50

IF(34-32.2) 34-32.2

What this does if the rate is unbalanced it runs the rate. To do this you would potentize the IF statement program into a crystal/sand followed by the rate(s) you want checked. You do not have to potentize the rates twice, but you can. Finally, if you want to set up a very complex program you could do something like potentize the IF statement followed by a complex stored radionics program like Saint Jude. If Saint Jude is needed it will run and if not needed it will not run. You can put as many of these statements together as you need.

68. UTRAN LOOP Statement

All rates for this program are contained in the book, "Level-2 Radionics". This program allows you to do "computer programming" using analog rates on Radionics machines. The loop statement allows you to write a program that will repeat until a determined need is met. The Loop statement is used with the Endloop statement (27-41). Loop contains 2 rates of 10 banks. The Kiss of God rate is 35.5-21.4, you are asking God to bestow a blessing. Here is an example using Loop, Endloop and Kiss of God. This may not be the best example because you can never have too many blessings but there is a time when there is enough. In addition, like all stored radionics programs it is executed in parallel so statements below the loop do not wait for processing but process at the same time, immediately.

Loop(KissofGod)
Call KissofGod
EndLoop

Start a Loop. As long as KissofGod is < GV
Execute the line function Kiss of God

In this example the loop will run until KissofGod is no longer needed. It just repeats over and over until not needed. I know this is complex, but it works. Use in the same way as the IF statement except end the loop with the Endloop rate. (Endloop rate is 27-41)

69. IF Wormwood

This program combines the UTRAN IF program with the anti-parasitic herbal Wormwood with Quassia and Male Fern. This would be written as IF(wormwood) wormwood. It is made by potentizing the IF program into a tube of sand, then the herbal. This completes the question IF(wormwood). If it is true that wormwood is needed then we want to process the answer. In this case the answer is the same as the question, wormwood compound. I remove the wormwood from the witness well, return it to the witness well then potentize it into the tube of sand for the required amount of time followed by locking the sand. This is important if you want to leave the IF Wormwood program tube in the input well all the time. Wormwood, if used in excess can harm you. In this case, the Wormwood compound is only activated if required. So, if the question that wormwood is needed is Yes, then the wormwood is broadcast, if not needed it is not broadcast. This is a much more powerful program than just the herbal wormwood compound without the IF.

70. Inside eWell Version 2.0 (PipeLine Witness/Stored Rates)

This replaces the program inside of the eWell with an updated version with even stronger separating and protection against spiritual attacks against the system. You can also put this in a witness well with multiple witnesses and the program will keep them separated. This card can also be used to separate witnesses and the stored rate cards being sent to them from other witnesses and their stored rates. Example: Card 70, witness, stored rate card(s), Card 70, Next witness..... There are users who have 100 segments of 70-witness-cards-70 on one radionics device without problems. Each witness/cards segment is pipelined and kept away from all other witness/card combinations.

2021 Release

Contains 9 programs.

64. Reverse Radiation Effects

Attempts to increase oxygen absorption without increased respiration.

93. Clear All Stray and Negative Energies

Should not be used 24/7 or combined with other programs. When someone has been in a bad environment such as war, hospital, nursing homes, etc. this program becomes extremely useful. Try with people who have depression. Sometimes works.

2022 Release

127. Professional Eater

Used this many times on elderly that forget to eat. Also assists with those in mortal danger who refuse to eat. Can be run 24/7. So far, there is no danger of weight gain on elderly but won't bet on that for younger people.

2023 Release

This release contains 6 new programs.

247 – Mice Go Away!

This program attempts to have mice (not rats) leave the area contained in the witness. When you stop broadcasting, they will eventually return. It is also suggested you do not get greedy and attempt to remove them from a large area, so no city wide. They must be left with someplace to go. There are some essential oils you can research that are pleasant to humans but detested by mice.

311- AFIB and other heart issues

This was developed for a friend whose beloved developed AFIB. It is pure rates for AFIB and other rates that support the resolution of AFIB. Do not stop medical treatment by a licensed medical professional. This is spiritual support only and is not offered as a cure.

321 – Bleed Stop

Stops uncontrolled bleeding. Suggest witness shows the bleed area.

329 – Increase Mental Focus

Mental fuzziness seems to be so commonplace these days that it is taken for granted. This attempts to increase mental focus.

335 – Oxibendazole

This is a radionics copy of the veterinary drug oxibendazole which is used to protect against roundworms, strongyles, threadworms, pinworms and lungworms in horses and some other domestic animals.

348 – Big Sea Version 2

This version contains all the Spooky2 preparations and programs for cancer. It took 3 months to convert the Rife rates to radionics. It also contains all the rates in Big Sea Version 1, all the emotional support deemed useful and other rates that contribute to recovery. Do not stop medical treatment by a licensed medical professional. This is spiritual support only and is not offered as a cure.

Explanation of Spook2 Label: Information cannot be copyright only the implementation of information such as written text or computer programs. Radionics Programs labeled as Spooky2 uses Royal Raymond Rife frequency information implemented by the Spooky2 device in addition to other things in the format of stored rates. The original frequencies are not stored, just information.

How to Use:

All the programs in the kit are locked with lock-1 gem. You should never unlock them. When you copy them, the lock will not copy. Assuming you are copying to something solid and not broadcasting, the process will be something like the following:

1. Turn a bank on and set to 0-100. Assuming potentization, turn the potentizing well on and set to IN-PHASE. These settings will remain for the rest of this procedure.
2. Put jewelry/crystals/sand/food that you want to potentize into the Potentizing Well. Put the master tube from the kit for Unlock-1 Gem (#2) into the Witness Well.
3. Determine how many minutes it takes to run unlock-1 gem to clear the new material of any negative energies. Then run the program. If the jewelry/crystals/sand were already locked, then you will have to run unlock-1 gem twice in a row. (Not just twice the time)
4. Put the master tube from the kit that you want to use in the witness well. Set one bank to 0-100. Use stick to determine how many minutes to potentize for. It will rarely exceed 30 minutes and will almost always be less.
5. Turn the potentizer on, set it to IN-PHASE then go into broadcast mode for the minutes indicated.
6. After the above is done, then copy lock-1 gem into the gem to lock them. This makes sure that they will not be damaged during travel or from magnets, strong sunlight, etc.

Notes: If you are making a copy of one of the locks, first potentize the lock into the sand/crystals then lock it. Example, Lock-1 Gem: Potentize it then run it a second time to lock it. For unlocks: Potentize it then run Lock-1 Gem to lock in the unlock.

DISCLAIMER

These programs are made available on an "as-is, where-is" basis with no claim or warranty of any type. In addition, you are not paying for these programs. They have been made available free and I entered them into the public domain. If you are paying, at all, then you are paying for the significant amount of work and cost involved in sourcing appropriate media, clearing the media, programming the media, locking the media, labeling the media, organizing the media, and repeating this for all the programs for hours on end. It may also include combining them into a library with appropriate packaging and documentation. Therefore, you can't buy these programs, just the work involved in making copies is more than anyone can charge and that doesn't count the decades of work developing the programs. I, personally, do not offer them for sale but there are people who have agreed to do so.

How to get copies of my programs:

The number of people who make the library available has gone down because of the significant work and low return. Sami still makes them available. Email him at Sami Choudhry <saminox@hotmail.com>

General Comments from Pete:

Some people have asked why there are numbers missing. The reason is because I did not release those programs. There could be a lot of reasons for that, including some of these programs are fragments used as a subroutine in larger programs. A few programs I am not releasing because they could be dangerous and should not be used by inexperienced operators. A few are not released because it is not time for them. Everything I release is safe for a beginner or advanced user.

I have been asked how I make money if I don't charge for programs. I provide a very Zen like answer; this is what I want. Of course, I have a job where I make my living and I have used radionics to be very good at my job, which has rewarded me financially.

How can I find more radionics operators? Facebook and meetup.com are some of the best places to network with radionics operators on a global scale. Facebook may become problematic for radionics operators and some people are already planning to move to mewe.com if Facebook censors radionics. Many existing Facebook radionics sites have moved to private or secret. There are not a lot of meetups so create your own "club" and hold meetings.

I want to send you a thank you, what do you want? My favorite gift is an email letting me know what you have been up to. Feeling appreciated is always good. You could use the email address peter@tigerteam.com If you liked my books please leave a review on amazon.com.

Closing Idea: No one and nothing can make you happy. Happiness comes from within you and that is where you must find it.
